To Whom It May Concern:

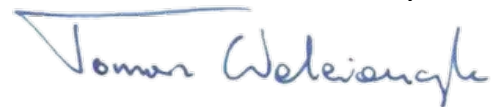

Company Certyfi-CAD provided very good 3d and 2d drafting services to our business allowing to move some of the non-critical design workload outside our headquarters.

The quality of work was very good as well as communication with Mr. Arkadiusz Solon. The undertaken projects were delivered on time and any required corrective actions were implemented instantly to the project.

We can fully recommend the Certfi-CAD for subcontracting the modelling and drafting of work intensive projects.
